MIDWAY'S CONVENIENT MONEY-MAKERS

MAXIMUM PROFITABILITY FROM MINIMUM SPACE

Video games have become a serious form of recreation that is now made more convenient to an entire new range of players with Midway's **MINI-MYTES.**

Yes, now there are new markets that let you expand to more locations like theater and hotel lobbies, small lounges, clubs, retail and convenience stores. What's more, Midway helps you to open more doors with special advertising to these new prospects.

MINI-MYTES are space savers! Compared to standard arcade units that usually require 6½ square feet of floor space, **MINI-MYTES** take up just 3¼ square feet. Three **MINI-MYTES** can be placed in the space of 2 standard arcade models and produce 1/3 more play-action.

These attractive, compact units feature the most exciting sight and sound games that players know and enjoy. Take advantage of these convenient, extra-profit opportunities with **MINI-MYTES.**

Check your Midway distributor or contact us.
